Leaders in Compressed Air Solutions

Supplying Western Australia for more than 30 years

Air and Power, a Western Australian company established in 1990, specialises in the sale and servicing of air compressors and vacuum pumps.

Backed by 35 years of expertise, reputable international suppliers, and a team of highly skilled mobile technicians, we deliver tailored solutions to enhance efficiency, minimise downtime, and reduce ownership costs.

Now part of The Crommelin Group, we remain committed to excellence, offering innovative systems and reliable service across industries, supported by a portfolio of dedicated clients.

Industries we serve

Air and Power provides tailored solutions to a broad range of industries, including:

- Automotive and workshops
- Manufacturing and fabrication
- Food and beverage production
- Healthcare and pharmaceuticals
- Construction and mining
- Agriculture and water treatment

Our Product Partners

Pilot Air's compressors and components are manufactured for Australia's operating conditions.

Masport Pumps has been building vacuum pumps and accessories since 1910.

Honda Petrol engines are used to power Masport and Pilot engine driven models.

Founded in 1965, Crommelins Machinery provides fit-for-purpose, portable powered products to the Australian industry.

Comprehensive Product Range

High-performance air compressors, air receivers, and vacuum systems designed to meet the unique needs of workshops, factories, and heavy industrial applications.

Air Compressors

Air Dryers

Air Receivers

Spare Parts

Pumps

Our Specialised Services

We offer a wide range of services on all things compressed air and vacuum pumps.

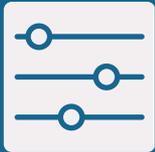

SERVICING & MAINTENANCE

We service any major brand of air compressor and vacuum pump with our fully equipped workshop in Belmont.

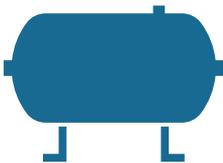

INSTALLATION

We handle anything from a new system installation to a single component - we manage the project from equipment selection to commissioning.

CUSTOMISATION

With our workshop equipped with in-house machining, steel, and sheet metal fabrication facilities, we can customise based on your needs.

AIR RECEIVER INSPECTIONS

We offer pressure vessel inspections in accordance with the AS/NZS 3788 (20006) standard. We service all brands of air receivers.

PLANT REGISTRATION

We can help you stay compliant by assisting with your air receiver registration for WorkSafe WA.

AIR RECEIVER SOLUTIONS

We provide a variety of treatment options for your air receiver such as modern thickness testing, chemical corrosion treatment, and internal coatings.

Our Work

Pilot PAC75 with a TFD 220T air dryer and a PAC22 with a TFD45 Air dryer both with a 2150L vessel each, for **Expressway Spares' new workshop in Forrestfield.**

New PilotAir K30 was modified to include continuous running, allowing the compressor to run continuously without the need to start and stop. This reduces the strain on the generator greatly while in use. **Arc Infrastructure, WA**

Tailored air multiplier designed for a client in the tyre industry. This innovation enables the client to double the pressure generated by their air compressor, enhancing tire inflation efficiency. Designed and manufactured in our Belmont workshop

Full servicing of a Pilot Air Nobel compressor. Refurbished and tested before being deployed back to client's site.

Full refurbishment of a Masport pump for **Abott's Liquid Salvage, Albany.** The pump's clearance was reset and exterior was spray painted. Pump was tested before being sent back to client.

Why choose Air & Power?

We offer 35 years of experience across diverse industries. Our team provides innovative, effective solutions tailored to client needs.

Quality customer support and reliability are our focus. We have a dedicated team of technicians available across Perth and regional Western Australia.

We implement and install energy-efficient systems that helps clients achieve their sustainability goals while improving productivity in their operations.

Our strong relationships with product partners minimise downtime by providing spare parts and efficient servicing.

Air & Power is the only state distributor for PilotAir.

Contact Us

Choosing Air and Power means you have the advantage of working with an Australian-owned and operated company. Not only will you benefit from our 35 years of expertise, but also that of our trusted suppliers.

Whatever industry and whatever your specific requirements, we look forward to finding a tailored solution for you.
